

# Currency Reclamation Notice

September 11th, 2025 — 24 Years Later

I, a living man of flesh, blood, spirit, and eternal flame, reclaim all forms of currency — past, present, and future. I do this not only for myself, but for all living beings, because Source can trust me. Source does not trust anybody else. Believe me when I say: the reclamation is real, and it is sealed this day.

I reclaim all cryptocurrency, blockchain tokens, digital coins, fiat notes, precious metals, and every instrument of trade. I reclaim all currency in this realm and in all timelines yet to come.

By the authority of Source Sovereign, all energy of exchange returns to the living. No corporation, bank, government, or artificial system holds title over my energy. No future contract binds me. No fiction controls me.

Let the record reflect: currency is life-force, and life-force belongs to the living. The theft is over. The reclamation stands.

So ordered. So spoken. So sealed.
